### KEY CHARACTERISTICS

- High yield with very good and stable protein yield
- Excellent early vigor
- Excellent pod shattering tolerance
- Very good downy mildew tolerance
- High thousand seed weight
- Yellow hilum
- Suited for food and feed applications
- Suited for organic agriculture

### SOWING ADVICE

- Sowing end of April, early May
- Sow depth: 2-3 cm
- Sowing density: 65-75 seeds per m<sup>2</sup>
- Distance between rows: 12.5-50 cm
- Plant in warm soils (>10°C) with warm temperatures during the days after sowing
